PROGRAMMING THE EZ-SERIES SIMPLEX TIME-DOSE PANEL

With power supplied to the panel:

- Press SET button for 3 seconds to enter programming mode;
- Use the MENU button to cycle between settings and the SET button to make changes
- Cycle through menu until you see 'ON' in **mm:ss**
- Press SET button to set pump ON time. Use MENU button to select digit to change and SET button to change the time.
- Press MENU button to cycle to 'OFF' time in **hh:mm**
- Press SET button to set pump OFF time. Use MENU button to select digit to change and SET button to change the time.
- Press SET button for 3 seconds to return to view menu

RESETTING THE PANEL TO ORIGINAL DEFAULTS

- turn Control power breaker to OFF
- press and hold both MENU and SET buttons
- with buttons both held, turn Control Power breaker back ON
- continue holding both buttons until FS is displayed on the screen
